

## Carmen Sciotti

your go to person in youth advocacy, environmental science and social media!

### Background:

Food and science technology. Environment and development.

### Specific knowledge:

Food systems, sustainability transition, communication, youth advocacy, and engagement.

Works mainly with NGOs (e.g. [Young Global Pioneers](#) & [UNLEASH](#)):

- **Content creation:** the creation of video/posts/ carousels, which focus on environmental science, across different social media platforms ([Instagram](#) and Youtube)
- Raising awareness on SDGs: handling events and workshops on design thinking, and leadership skills development
- Public speaking

### Professional and Personal Interests:

I am passionate about plants and their usage in agroforestry systems. Passionate about science communication, I am deepening my understanding of software and tools for content creation (Adobe Creative cloud). I dream about collaborating on European projects to positively impact the local environment.
