

## Philipp Schabert

Your contact for sustainable construction, afforestation and wood-based resources

### Background:

Building sustainable, customized, energy-efficient houses and office complexes with eco-friendly, wood-based resources as a carpenter and team coordinator

Student at the Technical University Munich (Campus for sustainability)  
Bioeconomy Bachelor of science (studying since 08/2021)

### Work at the Technical University Munich:

- President and representative of the bachelor bioeconomy 2021
- Representing bioeconomic bachelor students at TUMCS
- Collaborating with and informing the student council of ideas emanating from the class

### Work as a Carpenter :

- Building sustainable and energy-efficient houses
- Team leading, project coordinator
- Active as a representative in interviews and on social media

### Professional and Personal Interests:

I am interested in wood-based resources, renewable energy, ecosystems, the biodiversity in Europe, skiing, hiking, piano, and communication (social media, [networking](#))
