

Matteo Bifone

your go to person for internationalization of Bioeconomy!

Background:

Lyceum diploma in the scientific branch with deepening in biology and sustainability.

Bachelor student at the Technical University of Munich (at the Sustainability Campus)

Internships towards sustainability:

- Fondazione Golinelli (study on bacteria capable of degrading plastic)
- Plass Architektur (construction and renovation of altbau-style houses in the most sustainable way possible)

Professional and Personal Interests:

I am passionate about bioeconomy, sustainability, renewable resources, economic and international aspects of Bioeconomy, fitness, and watching movies (social media, [networking](#)).
