Concrete solutions for our greatest challenges

MISSION 'RESTORE OUR OCEAN AND WATERS BY 2030'- THE MEDITERRANEAN LIGHTHOUSE IN ACTION

Palermo, 30-31 May 2023

This high-level event is organised by the European Commission in close cooperation with the Italian government, the Sicily Region, and the University of Palermo, with the support of the BlueMissionMed Co-ordination and Support Action.

The event will be an opportunity to witness the political commitments of the Mediterranean countries towards the Mission [Restore our Ocean and Waters \(europa.eu\)](https://europa.eu) and to present the actions and initiatives which contribute to the Mission objectives that may be scaled up and replicated in other sea basins.

The event will welcome stakeholders from the Mediterranean basin, international and sea basin intergovernmental organisations as well as representatives from regions, cities, ports, islands, shipping, industries, academia, education, researchers, investors, NGOs, citizens and youth.

The programme will include demonstrations of EU projects contributing to the Mission's objectives, celebration of coalitions of cities and regions as well as a *Blue Islands ceremony*, with exchanges of best practices, awards to islands championing the Mission, and with strong participation from youth and blue schools.

**30 MAY – MORNING: SIDE EVENT OF THE BlueMissionMed
COORDINATION AND SUPPORT ACTION**
