methods and
models

The European Commission's Knowledge Centre for Migration and Demography

Better data & analytics

Making sense of data

Tailor-made evidence

Anticipation & foresight

New knowledge

The European Commission's Knowledge Centre for Migration and Demography

➤ Comprehensive evidence-base

- Inventory, catalogs
- Dynamic data hub
- New sources of data
- Knowledge gaps

➤ Analyses, modelling and foresight

- Migration incentives and determinants, forced displacement
- Early warning
- Migrant diasporas
- Impacts on economy and society
- Trends, scenarios and simulations
- New knowledge

The European Commission's Knowledge Centre for Migration and Demography

➤ Science partnerships and networks

- Knowledge base extension
- Europe and international
- Joint approach
- Knowledge sharing

➤ Science-policy interface

- Scientists – statisticians –
policy makers – operational authorities
- Platform to serve needs
- Stimulating discussions
- Future recommendations

The European Commission's Knowledge Centre for Migration and Demography

KNOWLEDGE

PARTNERSHIP

UPTAKE

- Knowledge tailored for policy
 - Fit-for-purpose
 - Exploitation and facilitation
 - Better understanding
 - Services, website, visualisations
 - Workshops and seminars
- Flagship publications
 - Biennial state-of-the-art report
 - Thematic science-for-policy briefs
