## Some conclusions/recommendations:

- **Environmental issues are cross-borders, therefore policies and actions should be cross-borders;**
- **Citizens, as well as the authorities ... should advocate for and enforce strict legislative measures against ... the pollution and destruction of rivers and lakes;**
- **Scientists should advise decision-makers ...**

## Some conclusions/recommendations:

- **Children should start learning about ecology, water, healthy living, etc. as early as possible.**
- **Design and implementation of long term water protection programs;**
- **Environmental related education should be done both at home and at school;**

# THANK YOU !
